

I want the petition withdrawn. I will be contacting my bank personally to have them withdraw the petition also, if they don't i will close my account and open another with one that doesn't belong to CBA. If i wanted them to bug me with anything i would call them myself and not to mention that they send info in my monthly statement, and for other companies that i don't do business with they already do enough advertising to where they don't need to bug people on the phone, our phones our our personal possessions we pay the bill not the CBA or other companies that wish to bug us. We work to pay our bills we have the right to not be annoyed with phone calls from companies that are soliciting it's called spam just like on the internet, (unwanted) If we want info we would call them ourselves. It's not fair that we work to pay for our phone then listening to our phones ring off the hook from solicitors NOT FAIR to us. Withdraw the petition please.
